PRESIDENTS CORNER

Montana Unit Newsletter (061) April 2017

Our planning for the first Spring Rally is in its final stages. I spoke with the deputy town clerk earlier this week and was informed the park is snow free so we can expect to be camping there soon. Keep in mind this will be a dry camping rally so pack accordingly. We travel with a 3000 watt generator that we will make available to anyone who needs electricity or battery recharging during the rally. The park is situated on the banks of the Yellowstone River and one of our rally attendees informed me that he will be bringing his fly fishing equipment. That seems like an ideal plan for this location. Hint, hint Mike. We are still in a weather dependent situation and I informed the clerk that I will be checking in with her again. I will make a final decision about the 20th of April and advise all members accordingly. We are preparing a rally agenda and driving instructions etc. and I expect to have them emailed to all in the next week or so. Keep a close watch on your email in box.

We are about to begin our long trip back to Montana. We will soon be heading to Florida to spend Easter with our son and his family. This is becoming an annual event which we eagerly anticipate.

The down side is this roundabout trip back to Montana is almost 3800 miles instead of the 1800 we normally travel when returning from Texas.

A sacrifice we gladly make to keep the bonds of family strong.

Stay well and warm and we will see you at the rally. We know each of you will have interesting stories to tell about your winter adventures when we gather around the campfire. We are particularly interested in hearing from Fred and Patti Spillman who have been traveling quite a bit so we understand.

Believe it or Not

This Masonite-sided teardrop shaped trailer was the original Airstream, produced until they began making aluminum models in 1935.
